Hey Gang, it has been a pretty slow year for airplanes at the meetings.

We have the November and December meetings still open for you to bring a model for competition.

Let's hope that the coming year will not be so stressful and we can get back to enjoying our pastime more.

When we turn into the entrance to our field, there is the repeated realization that we can enjoy the isolation from the rest of the world for a while.

I have always preferred to fly in the afternoon and enjoy those last few touch-and-go landings before sundown when the wind falls off to almost nothing.

The added bonus is being able to turn to the West and enjoy beautiful, unobstructed sunsets.

This is our little slice of Heaven Enjoy it as often as you can!
